

I Know Everything About You

The Kry

O when I think about
The universe is Yours
My mind starts trippin' out
That I mean so much to You
And I don't know why
'Cause You've got everything

Last night the stars were out
Reminded me of You
I sat there spacin' out
That You made me too
And I don't know why
'Cause You've got everything
So why would I ever need anything?

Chorus:
(I got) You...
You've got everything
I mean "everything"
So why would I ever doubt You?
When I look at You
You've got everything
More than words can say
Much more than I ever dreamed about
Everything...

I finally figured out
Writing out this tune
That money, homes and motor cars
Are nothing without You
You gave Your life
Yes, You gave everything
So why would I ever need anything?

(I got) You...
You've got everything
I mean "everything"
So why would I ever doubt You?
When I look at You
You've got everything
More than words can say
Much more than I ever dreamed about
Everything...

You got everything I need
You, You've got everything

You...
You've got everything
I mean "everything"
So why would I ever doubt You?
When I look at You
You've got everything
More than words can say
Much more than I ever dreamed about

(Chorus)

When I look at You
You've got everything
Everything everything
Everything I need yeah...
Yeah...
