

When You Need Someone

The Kry

Who ya gonna turn to when the gang's all gone
Who ya gonna run to when they're not around
Let me walk beside you, let me hold your hand
Help you make it through, make it to the end

Long are the roads you must travel on
Steep are the hills you must climb
When you try to follow God alone
And choose to carry the fight
So you will need someone to come along
When the flame starts to die
I'll be around to help you carry on
Help you re kindle the fire-yeah
Any day, any time you know you're not alone

Chorus:

When you need someone to come alongside
When you need someone to lead the way
When in your trouble times
there seems no end in sight
Just remember you can lean on me
When you need someone

Great are the oceans you must sail on
Windy and stormy at times
But I'll remind you God's still on the throne
And He can hold back the tides
Any day, any time you know you're not alone

Chorus

Who ya gonna turn to when the gang's all gone
Who ya run to when they're not around
Let me walk beside you, let me hold your hand
Help you make it through, make it to the end

Chorus
