

## Standing Next to Me

The Last Shadow Puppets

Want her, have her  
Two years have gone now  
But I can't relate  
To the never ending  
Games that you play  
As desire passes through  
then you're open  
To the truth  
I hope you understand  
And your love  
Is standing next to me  
Is standing next to me

The one you fell for  
makes it seem juvenile  
And you'll laugh  
At yourself  
Again and again  
And we'll drink  
To the thought  
She'll remember you  
Maybe tomorrow

And your love  
Is standing next to me  
Is standing next to me  
And your love  
Is standing next to me  
Is standing next to me  
Is standing next to me  
Is standing next to me

Want her, have her  
Two years have gone now  
But I can't relate  
To the never ending  
Games that you play  
As desire passes through  
Then you're open  
To the truth  
I hope you understand

And your love  
Is standing next to me  
Is standing next to me  
Is standing next to me  
Is standing next to me
