

# Can You Hear Me Call?

The Latency

Can you hear me call?  
You're selling out, I see it now  
But I have never seen your face  
It's a long way down  
It's a long way down  
But will you ever save the day?

I'm tired of interest  
I'm tired of failing  
I'm tired of you  
You don't want to do this  
You don't want to feel this  
You won't let me through

Tell me where we went wrong  
Show me where we belong  
Cause I have looked deep inside of me  
I cannot find a memory  
How did we end up here,  
Knowing nothing but fear?  
Cause I have looked deep inside of me  
I cannot find a memory

You're copping out, I see it now  
Because you're not sure if this is safe  
So hear me now, hear me now  
And I'll show you  
That you have lost the way

I'm tired of interest  
I'm tired of failing  
I'm tired of you  
You don't want to do this  
You don't want to feel this  
You won't let me through

Tell me where we went wrong  
Show me where we belong  
Cause I have looked deep inside of me  
I cannot find a memory  
How did we end up here,  
Knowing nothing but fear?  
Cause I have looked deep inside of me  
I cannot find a memory

And can you hear me,  
Can you hear me,  
Can you hear me call?  
I won't take the,  
I won't take the,  
I won't take the fall

Can you hear me,  
Can you hear me,  
Can you hear me call?  
We won't take the,  
We won't take the,

We won't take the fall

Tell me where we went wrong  
Show me where we belong  
Cause I have looked deep inside of me  
I cannot find a memory  
How did we end up here,  
Knowing nothing but fear?  
Cause I have looked deep inside of me  
I cannot find a memory

Tell me where we went wrong  
Show me where we belong  
Cause I have looked deep inside of me  
I cannot find a memory  
How did we end up here,  
Knowing nothing but fear?  
Cause I have looked deep inside of me  
I cannot find a memory

Cause I have looked deep inside of me  
I cannot find a memory  
Can you hear me call?
