

Here Comes the Neighborhood

The Lawrence Arms

I work on belmont, but i live in wicker park
All my friends are bartenders in all the coolest bars
My girlfriend's in the coolest band that you've ever seen they
play
The empty bottle every week.
Live got everything i need.
My loft, my motorcycle,
My hip restaurant down the street
And my neighbors are all artists or hot girls over 18 who needs
community
When you live right in your scene?
From jinx to betty's blue star,
Everybody knows my name from north avenue down to augusta
Everybody's all the same
It's a playground fueled by beer no chicagoans live here.
It's geography ound tightly by big city dreams.
And when the property value's raised you'll be on your merry wa
ys like the poor Outclassed families before you you've already
paved ashland
To western chicago to north avenue congratulations kids,
Your shallow model city is sinking.
You've become what you swore that you'd never be.
