

Breathe

The Leaves

Suck it out, timeless waitin' I
Am the eye, wandering all alone
To the sun to keep me up with her
There's her house, where I can breathe my own soul
You can't get me in still you try
Stuck in my head, this feeling that makes me breathe out
So bring me down
Suck it out, timeless waitin' I
Am the eye, wandering all alone
To the sun to keep me up with her
There's her house, where I can breathe my own soul
You can't get me in still you try
Stuck in my head, this feeling that makes me breathe out
So bring me down
Suck it out, timeless waitin' I,
There's her house, where I can breathe my own soul
You can't get me in still you try
Stuck in my head, this feeling that makes me breathe out
You can't get me in still you try, no
Stuck in my head, this feeling that makes me breathe out
So bring me down
