

Deep Blue

The Leaves

How can I, get rid of the lines around my eyes
Will your soul, help brighten my complexion
My skin is dry, my head is troubling me again

So I leave my deep blue day
For you
For the first time all the way
For you

All the time, that I didn't listen
Now it's gone, the bridge between our two worlds
My eyes go blind, my head is troublin' me again

So I leave my deep blue day
For you
For the first time all the way
For you

So I leave my deep blue day
For you
For the first time all the way
For you
