

Plasma Twins

The Legendary Pink Dots

Give me plasma! Make it soon!
Your love is not enough.
I've got you in my heart,
But i want you in my veins.
And I'll meet you at the blood bank.
They could pump you into me...
It's only fair because you know I like
Pumping into you.
Give me plasma, be my plasma doll,
My plasma lady fair...
It's nice to know we're always sharing;
A love like ours is rare.
Yeah I'll show you my muscles
If you give me your corpuscles...
I'll have your blood,
If you'll have my seed.
We'll grow together,
The Plasma Twins...
The Plasma Twins...
You won't feel a thing...
The Plasma Twins...
That's us!
