

Nothing True

The Lemonheads

It's not me, this disease
It's not you, that's not true
It's our fault, me and you
Most of all, you're not you

I dream of you, it's nothing new
I dream of you, it's nothing true

It's not you, that's not true
It's our fault, me and you
Most of all, you're not you
You're nothing new
You're nothing true
I dream of you, it's nothing you
