Nothing True

The Lemonheads

It's not me, this disease It's not you, that's not true It's our fault, me and you Most of all, you're not you

I dream of you, it's nothing new I dream of you, it's nothing true

It's not you, that's not true It's our fault, me and you Most of all, you're not you You're nothing new You're nothing true I dream of you, it's nothing you
