

Tenderfoot

The Lemonheads

This is the place I wear the save face
This is the spot of where I jump off
This is the bar of where I lose heart

Over the pain and Im past the bleeding
And it's not the tracks, its where theyre leading

This my best king carnivore
This is my scream, its just a dull roar
These are my hands, Ive shown you before

Over the pain and Im past the bleeding
And it's not the tracks, its where theyre leading

Hasnt been so bad yet Ill do it again
The error of my ways, maybe one of these days
Hasnt been so bad yet Ill do it again
The error of my ways, maybe one of these days

It's irrelevant, Im an elephant, shes a mouse
It's irrelevant, Im an elephant, shes a mouse
