

Away From Me

The Letter Black

I can see that I've been lying to myself
I can see that I've been lost in all your lies
Your words seemed true
You're so deceiving
But I'm not believing anymore

You take the life right out of me
I'm not who I used to be
No I won't let you in
To take the life away from me

I can see you for the liar that you are
I can see your hands will try and bring me down
Your words seemed true
You're so deceiving
But I'm not believing anymore

You take the life right out of me
I'm not who I used to be
No I won't let you in
To take the life away from me

Away from me
You take the life right out of me
I'm not who I used to be
No I won't let you in
To take the life away from me
