

Pain

The Letter Black

Open your eyes
And you will see
Pain all around
Mostly the same
What can you do
Turn back the time
Change what has been
Just push rewind

There's something you can't do
To take away all the pain
There's something you can't do
To take away all the pain

Leave them fighting
Or reach out instead
They might just find
Some peace in their eyes
You might just be
Their only friend
You have the [?]
To put them on end

There's something you can't do
To take away all the pain
There's something you can't do
To take away all the pain

There's something you can't do
To take away all the pain
There's something you can't do
To take away all the pain
