

Rise from the Dead

The Letter Black

I look around and wonder are we alive
Are we dying inside, how are we living our lives
I take a deeper look at things that I say
At the people I hurt, at the thirst that's inside

I don't really like it
I don't wanna face it
I think it's time that I come to life
And I bury my demons better coming alive

Stop waking the dead
Lifeless in your veins
Please don't sell your souls
I can ease the pain

So be apocalypse
It's now or never
So be apocalypse
Rise from the dead

Why am I still up turning inside
Why am I stuck in my ways but I'm wanting to change
I know I can but it's edge to my brain
It's driving me mad, and I might be insane

I don't really like it
I don't wanna face it
I think it's time that I come to life
And I bury my demons better coming alive

Stop waking the dead
Lifeless in your veins
Please don't sell your souls
I can ease the pain

So be apocalypse
It's now or never
So be apocalypse
Rise from the dead

Stop waking the dead
Lifeless in your veins
Please don't sell your souls
I can ease the pain

So be apocalypse
It's now or never
So be apocalypse
Rise from the dead
