

## Somebody To Love

The Letter Black

It seems like it was yesterday  
We were young and in love, no bills to pay  
No worries in life to stress our days  
We held on, we knew we'd last  
Do you believe how much time has passed  
I still remember how you looked that day

Oh, everybody needs somebody  
Needs somebody to love  
And don't you know that you need somebody  
Need somebody to love

Somebody to love

I knew you were the only one for me  
You stole my heart deep down in Tennessee  
Those were the greatest days of my life  
And we've made it through all the good and the bad  
To realise that everything that we had  
Didn't mean a thing if I didn't have you

Oh, everybody needs somebody  
Needs somebody to love  
And don't you know that you need somebody  
Need somebody to love

Oh, everybody needs somebody  
Needs somebody to love  
And don't you know that you need somebody  
Need somebody to love

Oh, everybody needs somebody  
Needs somebody to love  
And don't you know that you need somebody  
Need somebody to love
