

## Until Death

### The Letter Black

We make a promise to love unconditionally until we die  
We make a promise to the one that we will love for all our lives

Through the good and the bad  
Here I am I give my life to you  
For richer or poorer  
Until death do we meet

We make a promise to stay true to the one God's given us  
We make a promise to love and to live and to laugh and share our lives
