

Chemically Free

The Levellers

I'm so glad to see you
and the things that you do
are so chemically free
it's a wonder to me
that you're still smiling
I hear you're on top of the heap
you own nothing that's cheap
and how is london town
is it getting you down
lately

Chorus:

Now you're on top of the world
Looking down on the nation
You're the boy with the girl
Who's above all creation
You're the man with the plan
Who's going to do all he can
for himself

verse2:

Did you buy all we sell
all you took from us well
they say that love's not for sale
and I have hit the nail
you've been holding
alle the friends that you made
for the prices you paid
Come to lye at four feet
and worship what you made
