

Do It Again Tomorrow

The Levellers

She's the queen of my life
Every day it seems a miracle
She's the love of my life
Every time she lights a candle
She turns and says to me

Can we do it again tomorrow

We make the most of our time
What's here today is ours to follow
When there's a fire in her eye
She breaks the chain and frees the animal
And turns and says to me

Can we do it again tomorrow

She holds the key to my mind
She stole my heart
It seems incredible
When she's near it's all right
When everything just seems impossible
She turns and says to me

Can we do it again tomorrow
