

Modern Day Tragedy

The Levellers

Been some places in my time
Seen some faces down the line
But nothing like you
Ain't nothing like you
Nothing like you

North wind blowing cracks my lips
Cold tomorrow's tearing strips
Nothing like you

Look at the things you've got now
It's all modern day tragedy
I hear the things you say now
Oh such a travesty

Look at the things you've got now
It's a modern day tragedy
All the things you say now
Oh such a travesty

Look at the things you've got now
It's a modern day tragedy
I hear the things you say now
Oh such a travesty
