

The Damned

The Levellers

You'll find us caught in the middle
Of our everyday in every way
You'll see us looking for a reason
In everyday in everyway
We slave and steal but what we just don't want
We just can't feel no we just can't feel
Were always surprised when we don't get heard
when we speak our words when we speak our words

Its not enough we say
Its not enough we say
Cos we the damned we wait
Cos we the damned we wait
Cos we the damned we wait
Cos we the damned we wait

You'll find us with a painted smile
Trying to get things done just to get along
You'll find us trying to chase down dreams
As they float upstream as they float upstream
Its been so long we've forgotten how to care
For the things we lost that are deep down there
But through every new fad, through every phase
Pleased every god worship every craze

Its not enough we say
Its not enough we say
Cos we the damned we wait
Cos we the damned we wait
Cos we the damned we wait
Cos we the damned we wait

Pass the time with a little bit of distraction
We pass the time with a little self destruction
We grasp at times moments of satisfaction

Cos we the damned we wait
Cos we the damned we wait
Cos we the damned we wait
Cos we the damned we wait
