

Crowdpleaser

The Lightning Seeds

Sung my heart out onto a CD
I was hoping that the kids would love me
Felt rough acting up on the TV
But everyone was smiling by midweek

Nothing gets me down
I please the crowd
I scream they shout
Crowdpleaser

It's great to be back with the big boys
Your face all over the tabloids
We'll turn some heads with a new fad
I've been dreaming all about it in rehab

Nothing gets me down
I please the crowd
I scream they shout
Crowdpleaser

I've been caring less and less
Since my overnight success
Not they love me in the press
'Cos i'm constantly depressed

I'll come back when I decide
Overnight and twice the size
Since my overnight success
I've been caring less and less

You can't go wrong
Here's a happy song
You can sing along
You can sing along
