

God Help Them

The Lightning Seeds

The storms of life will pass away
As I walk beside my holy-of-holies
The northern lights that held my gaze
Were heaven in those helish days
And once, I longed to taste them all

God help them
When they find out
That's what life is all about

The words have died upon our lips
The winds have blown disaster upon us
All my life I've braved these thorns
And weathered out the blackest storms
But once, I long to taste them all

God help them
When they find out
That's what life is all about
And god help us
When we find out
That's what love is all about

Since that day, you're all I've prayed for
We're bought and paid for
But it's cost us both more.....
