

## Like You Do

### The Lightning Seeds

You have to cut right through all the Pepsi lies  
And hold on tight, it's a stormy ride  
To get through to what you do  
Like you do, from wheels that never turn  
And lessons never learned  
Searching for a space where dreams will never burn  
Through the twists and turns, it's a funny world

Are you the king of cool with a secret sign  
Or the king of fools in a pack of lies  
Get through to what you do  
Like you do, from keys that never wind  
A place without a time  
Wishing on a star that's never gonna shine  
Through the twists and turns, it's a funny world

Get through to what you do

Like you do from wheels that never turn, lessons never learned  
Searching for a space where dreams will never burn  
Through the twists and turns, it's a funny world

Be everything you are, cherish what is true  
Celebrate with those who need to be with you  
Through the twists and turns, it's a funny world
