

What If...

The Lightning Seeds

You've been away so long, too long
What's wrong with us today
We're running out of funny things to say
Home, I'm almost glad we made it
I never thought we'd see the day.

What if now, after all
What if everything you've
Got made you want more
What if now, after all,
You've still not sure.

Remember, when a thought
Could last forever and a day.
Let's get back to
Waking up this way
Love, I'm almost glad we've made it
I never thought we'd see the day

What if now, after all
What if everything you've
Got made you want more
What if now, after all,
You're still not sure.

But before you slip, take a friendly tip
From a friendly face on a sinking ship
Don't ever doubt it, scream and shout it out.

What if I miss you
What if I need you
