

Undercover

The Limousines

We shouldn't let it go now that we've got it
We could be something special if we wanted
And I've been calling
I've been calling you
I've been calling
But you never pick up
You never pick up
Pick up

If we were somewhere else we would be golden
I could be someone special you were holding
And in the right light you look like my lover
But thinking we should keep this undercover
I've been calling
I've been calling you
I've been calling
But you never pick up
You never pick up
Pick up

We shouldn't let it go now that we've got it
We could be something special if we wanted
If we were somewhere else we would be golden
I could be someone special you were holding
And in the right light you look like my lover
But thinking we should keep this undercover
Keep this undercover...

If we were somewhere else we would be golden
I could be someone special you were holding
