## **Goodbye Little Rose**

## The Little Flames

Goodbye Little Rose,
Now you have to go
And find you live in the real world,
Don't you.

All those tears you cried Make you hard to like, Go and earn your depression, Won't you.

It's easy.
You're easy too.
Why don't you try a little more?

All those little ploys Helped you tease the boys. What will you do now your daddy's Left again.

Look now
Little Rose,
You've had time to grow,
You can fuck for your bread now
Can't you.

It's easy.
You're easy too.
Why don't you try a little more?

It's always the same,
But you never knew.
I'm happy to say
It's happened to you
