

In Another Life

The Little Flames

You're not
The same girl
That you once knew
These aren't the lips
You kissed
These aren't the same arms
That held you close
The girl you miss
Has gone

In another life
Maybe once I loved you
In another life
Maybe once I loved you
I once I loved you but no more

These voice
Can't speak tender words
To you
These hands
Don't reach for yours
These eyes are blinded
By you lonely heart
There's nothing more for you

In another life
Maybe once I loved you
In another life
Maybe once I loved you
In another life
Maybe once I loved you
In another life
Maybe once I loved you
I once I loved you but no more
No more
No more
No more
