

Isobella

The Little Flames

I've cried too many times just thinking of you
Your hollow face makes strangers of your eyes
Behind that empty gaze I tried to find you
Lost within yourself for all this time

Get your picture on the wall
Get your picture on my wall
Did you forget yourself again?

Isobella Isobella
Hide your lonely face
Isobella Isobella
You can't walk away
Walk away

Remember when the shadows tried to blind you
There's not a time or place you can control
How many times I dreamed that I would find you
Come on and hold the shelter from the cold

Get your picture on the wall
Get your picture on the wall
Did you forget yourself again?

Isobella Isobella
Hide your lonely face
Isobella Isobella
You can't walk away
Walk away
Walk away
Walk away
