

Beware The Moon

The Living End

She
She was the 7th in line
She
She had my heart in no time
She seemed like the normal everyday kinda
She
She had a secret to hide
She hoped I'd never find
Unaware do I care
I don't mind

Oooooo she scares the hell out of me
Oooooo but that's how I like it to be

Under the new light
Almost died of fright
Yeah
Under the new light
I was paralyzed
She changed right before my eyes

Under the moonlight

Well she was unafraid of horror films
And she liked the dark
She made up excuses to go walking in the park.

I tried to leave her
Yeah but I had the look
I was confused and amused and abused by her
Shes turning me into a nervous wreck
Make no mistake this girl gets as strange as it gets

Under the new light
Almost died of fright
Yeah
Under the new light
I was paralyzed
She changed right before my eyes

Under the moonlight

Under the moonlight
I almost died of fright
Under the moonlight
Beware the moon

Beware the moon
