

# Machine Gun

## The Living End

Like a machine gun you command  
Always in control and making plans  
Never one to give a second chance

And never one to walk away  
Or settle for the easy way out  
Never one to walk away  
'Til you lose your game

Battle in the old town  
Battle in the old town  
They'll take it all away from you  
Better give it up now  
You'd better give it up now  
They'll take it all away from you

You're getting closer to the edge  
Shot, paranoid, running scared  
And you're about to lose it, so choose it  
Don't do what you'll regret

And never one to walk away  
Or settle for the easy way out  
Never one to walk away  
'Til you lose your name

Battle in the old town  
Battle in the old town  
They'll take it all away from you  
You'd better give it up now  
You'd better give it up now  
They'll take it all away from you

I see through you  
I see through you  
I see through you  
I see through you
