

## New Trend (Demo)

## The Living End

Well there's a new trend  
Bet you didn't know  
wish it was the end  
And not the start of the show

Beg, steal and borrow  
Everything from the past  
There all gonna follow you  
But you know it wont last  
Know it wont last

You didn't see the early warning  
You didn't read the sign  
You didn't see the early warning  
You didn't read the sign

Always outta time  
Always one step outta time

There's a new model  
Ready to be used  
Don't worry about the bottle  
It's the label that you choose

Beg, steal and borrow  
Everything from the past  
They're all gonna follow you  
But you know it wont last  
Know it wont last

You didn't see the early warning  
You didn't read the sign  
You didn't see the early warning  
You didn't read the sign  
You didn't see the early warning  
Gonna get left behind  
You didn't see the early warning  
You didn't read the sign

Always outta time  
Always one step outta time

There's a new trend  
Bet you didn't know  
Wish it was the end  
And not the start of the show

Beg, steal and borrow  
Everything from the past  
They're all gonna follow you  
But you know it wont last  
Know it wont last

You didn't see the early warning  
You didn't read the sign  
You didn't see the early warning  
You didn't read the sign

You didn't see the early warning  
You didn't read the sign  
You didn't see the early warning  
Going to get left behind

Always outta time  
Always one step outta time
