

The Ship Is Sinking (Demo)

The Living End

Get up!
The river's rising
Get out!
Cos the worst is yet to come
Get up!
Cos the fire is burning
Get out!
Cos the worst is yet to come

Get out now, don't leave it too late
Get out now, don't hesitate
Get out now, don't leave it too late
Get out now, don't hesitate

Right now, there's only one way out
Save your self cos the ship is going down
Now, there's only one way out
Save your self cos the ship is going down

Heads up!
The tower is falling
Get out!
Because the worst is yet to come
Listen up! This is the final warning
Get out!
Because the worst is yet to come

Get out now, don't leave it too late
Get out now, don't hesitate
Get out now, don't leave it too late
Get out now, don't hesitate

Right now, there's only one way out
Save your self cos the ship is going down
Now, there's only one way out
Save your self cos the ship is going down

And you know where it's gone for ever now...

Right now, there's only one way out
Save your self cos the ship is going down
Now, there's only one way out
Save your self cos the ship is going down

Right now, there's only one way out
Save your self cos the ship is going down
Now, there's only one way out
Save your self cos the ship is going down

The ship is going down...
