

## Addendum Galactus

### The Lord Weird Slough Feg

Although you're locked away now  
Inside your wretched lair  
You'll find me nestled in your mind  
My seeds are planted there  
Could you not see me coming?

No more mercy  
No more lies  
We now control your mind

You cant escape my vision  
Your conscience now becomes my guide  
You thought you'd reached final frontiers  
But they remain inside  
Could you not see this coming?

No more mercy  
No more lies  
We now control your mind
