

Bi-polar Disorder

The Lord Weird Slough Feg

I try to hide from the condition of my mind
Infernal trappings of their race
Won't keep my organs in their place

Bi-polar disorder
For today I play the role of human being with a soul
And though I try to make believe
I find this body won't deceive
Bi-polar disorder
From the start I see the end
Another world to transcend
Since there's no riddle to be solved
I find a reason to devolve

Bi-polar disorder
