

High Passage-low Passage

The Lord Weird Slough Feg

I am a space pirate, you know my name
Asteroid mining is a dangerous game
Imperial navy can't keep up my pace
Chasing a rock into Zhodani space
You heard about me in the frontier wars
Psionic menace carrying alien spores
A living legend in the asteroid mines
Outvoting tariffs and imperial fines
One-thousand credits is my humble price
Whether it's nickel, iron, stone or ice
Only the wayfaring patron would dare
A merchant cruiser, a skyway corsair
It's not a mineral that I seek here
High passage, low passage
Any way I'm outta here
I was born in colonies
On fringe worlds of the galaxy
Meanwhile in Zhodani space
Imperial flagships follow me
