

Simian Manifesto

The Lord Weird Slough Feg

Never coming down from the trees
Never bending down on my knees
Your attempt to shackle my brain
Still afraid I'll put you to shame

I'm up here walking on air
It's like I'm not even there

Never coming down from the trees
Never bending down on my knees
With bad intent you stand and you stare
If I come down you'd better beware

You're down there fighting for air
From here you look pretty square

Never coming down from the trees
Never bending down on my knees
You attempts to shackle my brain
Only seem to add to my fame

I'm up here swinging in time
Survival's my only crime

Never coming down from the trees
Never bending down on my knees
