

## Starport Blues

**The Lord Weird Slough Feg**

Starport nightlife in its twilight has become obscene  
Military women they won't keep your conscience clean  
Thought police won't stop me messing around

Tangled in my body suit I slip into the night  
Hoping against all hope she will understand my plight  
Smart patrol won't keep my feet on the ground

Went out for a midnight rendezvous on brothel row  
Cybernetic overcharge will make her circuits blow
