

He Do The Police In Different Voices

The Loud Family

But you can't place...Make me an offer I don't waste them
now...

Are you still right?

What have you learned?

Do for yourself

Take what you can't earn

Do you still rank?

What do you say?

Take in the slack

'Cause baby your little control trip is going away

What were you believing--that I might do okay?

(Do we end up owing something?)

What were you conceiving?

Maybe just that plants and birds and rocks and things

could justify my day

He know he got to be good lookin'

He got the crystal blue persuasion

He know the thing that's gonna please ya

He is un chien Andalusian

He got the friend from many stages

He do the police in different voices
