

Let Her Go God Bless Her

The Louvin Brothers

Let her go, let her go, God bless her
She's mine everywhere she may be
She may ramble this wide world all over
But she'll never find a friend like me

I went to church last Sunday
I saw my old love there
And I knew her mind was a'changin'
From the way that she done up her hair

Let her go, let her go, God bless her
She's mine everywhere she may be
She may ramble this wide world all over
But she'll never find a friend like me

I'm going to the races
To see my pony run
And if I win any green back
We're surely gonna have some fun

Let her go, let her go, God bless her
She's mine everywhere she may be
She may ramble this wide world all over
But she'll never find a friend like me

Sometimes I live in the country
Sometimes I live up town
But sometimes I take a great notion
To jump in the river and drown

Let her go, let her go, God bless her
She's mine everywhere she may be
She may ramble this wide world all over
But she'll never find a friend like me
