

## New Guitar in Town

The Lurkers

There's a new guitar in town  
All the girls are hanging around

He stops and turns away (guitar)  
The kids ask him to stay (guitar)  
Don't even have to try (guitar)  
Just watch those little girls cry

When he says it's time to go  
You know he's doing another show  
Where does all the time go  
I don't know

There's a new guitar in town  
There's a new guitar in town  
There's a new guitar in town
