

# California Rain

The Madden Brothers

Little Darling don't you cry even California's cold sometimes  
We can make it, we got to try  
Baby I believe in California rain

Yeahhh

Let me take you back before the lights, before the crowd, before we made a sound

All I wanted was to make my mother proud

She told me "Son well from the side of town, no one even makes it out"

Before we created, before they hated,  
before anyone anticipated, we just want to make it

They said your crazy nothing's ever changing

So I packed up all my things and headed out towards the ocean

In my imagination California's waiting

She'll take me by the hand say "Hello, I'm so glad you finally made it".

Here comes the rain

Little Darling don't you cry, even California's cold sometimes

We can make it we got to try

Baby I believe

Summer's waiting, on the other side

There's no limit we can touch the sky

Baby I believe in California rain (Yeah)

It's been a long time coming, a long road running

You know what I'm saying, if you ever wanted something

So bad that you could taste it, couldn't sleep until you make it

And you know when you got it no one else could ever take it

When I met her she was easy she was happy just to meet me

She never wanted nothing just something to believe in

But the storms start raging come all the tribulations

When the fire starts fading, you've just got to recreate it

In my imagination California's waiting

She'll take me by the hand say "Hello I'm so glad you finally made it"

Here comes the rain

Little Darling don't you cry, even California's cold sometimes

We can make it, we gotta try

Baby I believe

Summer's waiting, on the other side

There's no limit we can touch the sky

Baby I believe in California rain (Yeah)

(California rain, California rain, California rain)

Everything ain't what it seems, California rain on me

Everything ain't what it seems, California rain on me

Everything ain't what it seems (rain on me), California rain on me
