

A Fall From Grace

The Madison

When I sat
Felt I had no where else to go
When in before the sun and god only knows
When I see your face it makes me think of that special place
Stood out on the rocks and watched the stars all fall from grace

But I knew that it had to end some day
You just didn't know what words to say

Constant fights getting stuck in my mind
I thought we knew enough to go and put them all behind
If I had the chance to make it all mend
I'd hold in you in my arms and never let you go again

Never let you go, never thought I'd know
Never let you go, never thought I'd know

But I knew that it had to end some day
You just didn't know what words to say

Felt we needed to spend some time
You didn't want to I knew because I read your mind
When I think back to that day you went away
I wanted to follow you, you knew I didn't want to stay
