

## Hurt So Good

The Magic Numbers

Oh...

Seen the light, the birth and you  
So kin for it to kill  
I've been wounded

Oh I won't begin to cry  
Close my eyes and want to die  
You had me fooled

And if it hurts so good  
Don't let me know  
Cause when it hurts so good  
Darling you know

Pull the stars down from the sky  
Through their beauties are decide  
If I am dreaming

Shape the truth from out my hand  
Wake the living, wake been dead  
Here's the \_\_\_

And if it hurts so good  
Don't let me know  
Cause when it hurts so good  
Darling you know

You better stop  
What if you are just a memory of this heart of mine.  
Just take a look inside

Stop,  
there is nothing left to give unless it's all worth  
while  
Have you erased the files

Stop,  
I can't afford to keep on running, running...  
For you
