

## Restless River

## The Magic Numbers

Careless seems the night  
It breathes the air though mists I wait inside  
Fearfull of hurting  
The realm that all the past we wash away

You came away before the warning signs  
There is no other way to leave this side behind

We don't move on the season  
What was there to worry you  
She cried his name  
Round and round the rosary  
Was left of you  
Will let me be  
I'm falling

Restless River flows  
It's strength beneath the banks of stupid crawl  
Helpless as a child  
I held your hand in fear of letting go

You pulled away before the warning signs  
There is no other way to leave this side behind

I am rejoiced as I lay  
To kiss the sky, the sky is bright  
The stars parades through  
Round and round the rosary  
We might to push away  
Or is it me that's falling

I wonder where you are  
I wonder where you are  
Each night I see you dance across the water

I wonder where you are  
I wonder where you are  
Each night I scream awake in instant morning
