

# The Song That No One Knows

## The Magic Numbers

As you walk away  
Tear are on my face  
Broken, blue, dark  
Now what can I do  
It's not fair  
If I lost you  
You went away  
Is this just done?

We've been playing games  
Turned agaist at times  
Thre wishes to wait  
What can I do  
It's not fair  
Your desapearance  
Just smile, you have to stop

No one is going to take the pain away  
Cause you've been lieing to me]  
No one is going to take the pain away  
Cause you've been lieing to me  
No one is going to take the pain away  
Cause you've been lieing to me  
Oh just stay away

Read this all alone  
Somewhere no one know  
All twisted in you  
Now, what can I do  
We never love to see pairs  
Lost, you runaway  
And who knows just why  
How to do now, baby

No one is going to take the pain away  
Cause you've been lieing to me  
No one is going to take the pain away  
Cause you've been lieing to me  
No one is going to take the pain away  
Cause you've been lieing to me  
Oh just stay away
