

The Song That No One Knows

The Magic Numbers

As you walk away
Tear are on my face
Broken, blue, dark
Now what can I do
It's not fair
If I lost you
You went away
Is this just done?

We've been playing games
Turned agaist at times
Thre wishes to wait
What can I do
It's not fair
Your desapearance
Just smile, you have to stop

No one is going to take the pain away
Cause you've been lieing to me]
No one is going to take the pain away
Cause you've been lieing to me
No one is going to take the pain away
Cause you've been lieing to me
Oh just stay away

Read this all alone
Somewhere no one know
All twisted in you
Now, what can I do
We never love to see pairs
Lost, you runaway
And who knows just why
How to do now, baby

No one is going to take the pain away
Cause you've been lieing to me
No one is going to take the pain away
Cause you've been lieing to me
No one is going to take the pain away
Cause you've been lieing to me
Oh just stay away
