

'71 I Think I'll Make Another World

The Magnetic Fields

I think I'll make another world
And fill it with whatever I want
No one can say I can or can't

I can see it now

I think I'll make another world
It may not start out very large
But no one else will be in charge
I can see it now
I can see it now

And we will dance in the all
Like we were very small
Through the air through the night
And through the marble hall

No one can say that's all wrong
Cause I'll say get out of my song

Cause I can see another world
And I can make it with my hands

Who cares if no one understands
I can see it now
I can see it now

Though all the stuff dream about
Since I was just a zygote
The headless karyotic
With her plucky seeing eye-goat

No one can say its all wrong
Cause I can say "Hey, it's my song"

Cause I can see another world
And I can make it with my hands
Who cares if no one understands
I can see it now
I can see it now

I can see it growing
And moving by itself
And talking in its own way
Its realer than the old wives?
