

## Born For Love

### The Magnetic Fields

Hey little cutie  
I was born for love  
Can't count the chains I have worn for love  
Killed three men and one unicorn for love  
But I won't mind if you just take me home

Hey little darling  
I was made for love  
Got down on my knees and I prayed for love  
Crawled from Tamworth to Adelaide for love  
But I won't mind if you just take me home

I know you've been lonely and misunderstood  
But I'm yours for the asking  
For now or for good  
If you want me to leave you just give a shove  
But you won't  
Because I was born love

Hey little cutie  
I was born for love  
Can't count the chains I have worn for love  
Killed three men and one (een!) unicorn for love  
But I won't mind if you just take me home
