

In My Car

The Magnetic Fields

You were mean to me and broke my heart
now you've gone away but we're apart
but I've got a special machine to take me where
things turned out differently and you still care

I'm in my car I'm in my car I'm taking a ride to somewhere inside

where you never left and I never cried at the speed of light in
my car.

Never comin' back to the world

I know where I belong where I'm your girl

so I've got fuzzy dice to bring me luck

roll me to a better place where we can rock
