

## Promises of Eternity

### The Magnetic Fields

What if the show couldn't go on  
What if we all got jobs  
And got to bed before dawn

What if Old Joe had to retire  
What if all the stage hands were let go or fired  
That's just like what the world would be

If you fell out of love with me  
I can't let this happen to you  
Don't you let it happen to me

What would our friends and family say  
If they could only see  
If you let this happen to us

Don't think you'd be setting me free  
Wasn't it you and I who made  
Promises of eternity

What if the lights didn't go on  
What if the velvet curtain had to be taken down  
What if the clowns couldn't be clowns

And all those painted smiles gave in to plaintive frowns  
What if no show ever happened again  
No Seven, no 8 1/2, no Nine, and no "10"  
All numbers and no mystery No promise of eternity
